

TRACTOR STOOLS

The BassamFellows Tractor Stool has become a bona fide modern icon. From the outset, it has proven to be a piece of infinite variety and its versatility is evident in the sheer number of spaces in which it appears from hotels and restaurants to homes.

Combining architectural precision with the honest, humanistic character of the handmade, the Tractor Stool embodies the BassamFellows 'Craftsman Modern' lifestyle vision.

The dynamic form of the object – a kind of luxurious reimagining of the prosaic workman's footstool – evokes a warm, organic feel that symbolizes nature and invites interaction. The stool's shape is directly influenced by the precise ergonomics of a Swiss tractor seat. Carved from a piece of sustainably harvested solid wood, it is then hand-finished by expert cabinetmakers. The stool is elegant yet informal, and supremely comfortable.

Like other BassamFellows furniture, the Tractor Stool wasn't designed with homogeneity in mind; it doesn't come from a production line and, as such, the grain of each piece is totally unique.
